

# ADVANCED AND HIGHER EDUCATION SERVICES

With its vision to become the center of excellence among institutions of higher learning, Jose Rizal Memorial State University (JRMSU) is dynamically and consciously applying for various strategies and techniques to cope with the ever changing demands of the society and to maintain its excellent performance in academic endeavor. It is a big challenge for the University to accommodate the needs of Zamboanga del Norte and neighboring provinces by providing competent graduates capable of embarking development to their working places.

The University, with the capacity to provide quality and relevant higher and advanced education in various fields, offers 3 doctorate degree programs, 18 master's degree programs, 50 bachelor's degree programs, 10 non-degree programs, 15 short-term courses and corporate high school. Advanced education programs are on the fields of education, public administration and management, rural development, health and nursing, arts and sciences, criminology, technological and vocational education and agriculture courses. On the other hand, higher education focuses on the fields of engineering, arts and sciences, criminology, industrial and information technology, teacher education, agriculture, forestry and fishery, maritime education, tourism, hotel and restaurant management, nursing and allied health sciences, public and business administration, commerce and accountancy, law, nontraditional courses and other relevant fields of study.

To ensure quality and responsive education that is comparable to the national and international standards, curricular programs of the University have been submitted for accreditation through the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACCUP) and International Standardization Organization (ISO) 9001 : 2008 for the College of Maritime Education courses. Technical-vocational courses have been also given National Certificate (NC) II by the Technical Education and Skills Development Authority. The University has 12 AACCUP accredited programs, 2 ISO accredited programs, and 15 TESDA accredited technical-vocational courses.

The fact that students in the University have diversities on skills and interests, addressing and attending their needs require much competence on the part of instructors / professors. In order to uphold quality and excellence in service delivery, University has fervently and unwaveringly provided opportunities for its faculty to be abreast of their fields by attending conferences, seminars and trainings and enrolling in advanced studies. The product of this strong motivation is evidenced by the remarkable performance ratings beyond national passing percentage in board examinations given by the Professional Regulation Commission.

The College of Nursing and Allied Health Sciences has proved its excellence when one of its students ranked number 6 in the whole Philippines in Midwifery

board examination. Another evidence of this effort is apparent in the achievements of students in academic and extra-curricular activities which most of them obtained the regional and national awards.

These significant achievements paved the way to government and private agencies in Zamboanga del Norte and neighboring provinces to entrust the holistic development of their scholars in the University. This School Year 2011-2012, the number of deserving students enjoying scholarships reaches up to 1300.

JRMSU will continue to venture on its vision of becoming the center of excellence among higher education institutions in the country.

### ACCREDITED CURRICULAR PROGRAM

Jose Rizal Memorial State University as an institution of higher learning is challenged to maintain and embark quality and relevant education to its clientele. As a response to this, degree programs of the University passed stringent scrutiny of the Accreditation Agency of Chartered Colleges and Universities in the Philippines (AACCUP), and International Organization for Standardization (ISO). Technical-Vocational courses have been accredited by the Technical Education and Skills Development Authority (TESDA). The submission of the curricular programs also served as a motivation to make improvements in the University's faculty qualifications, equipments, and facilities, ensuring the fulfillment of its objective for quality and relevant education.

## Faculty Development

The competencies of faculty determine their capacity to deliver and impact meaningful learning among the students. The kind of learning atmosphere they established and proper teaching methods and techniques they applied are dependent upon their capacity to understand and recognize each student performance level. And one of the best ways to achieve teaching with excellence is through faculty development programs in terms of seminar-workshops, conferences, for a, trainings and etc.

### Faculty Accomplishment

This year only four faculty from a number of faculty-nominees in the different campuses of the University stood as faculty meritorious awardees during the 3<sup>rd</sup> University Foundation Week Celebration on December 10-15, 2012. These faculty members were chosen based on their performance in instruction, research, extension and production. The four areas are the mandated functions of the faculty of the University.

The faculty awardees with extraordinary accomplishments were scrutinized by the Meritorious Award Committee headed by the University President, Dr. Edgar S. Balbuena with the Vice Presidents: Dr. Cecilia S. Sagiun, VP for Academic Affairs (VPAA); Dr. Evelyn R. Campiseño, VP for Research, Extension and Development (VPRED); Dr. Reynaldo M. Venezuela, VP for Administration (VPA) and the Deans.

**DR. NINFA B. PANGILINAN** is presently the College of Education Extension and BSED Program Coordinator and NBC Evaluator. She is an Instructor I teaching Professional Education and Mathematics subjects. She obtained her Master of Arts in Mathematics and Doctor of Education Major in Educational Management in this University. She presented research papers in the national and international conferences. She also published her research paper in a CHED accredited journal and international refereed journal. Dr. Pangilinan is always zealous in rendering her invaluable time and services whenever the University needs it. In fact, she has been one of the organizers and facilitators of various local and national events where the University is the host.

**DR. CLARITA D. BIDAD** is the Campus Extension Director of JRMSU Dipolog Campus and an Assistant Professor IV handling Professional Education and Science subjects. She attained her Master of Arts in General Science at Central Visayas Polytechnic College and her Doctor of Education Major in Educational Management in this University. As the Campus Extension Director, Dr. Bidad strengthened the partnership between the University and Local Government Units and other organizations within the institution's sphere of influence. She is also a committed and productive member of the JRMSU System Research Core Group. This is evident with a number of researches she presented in the local, national and international fora and conferences. She also published research papers in the CHED accredited research journals and international refereed journals.

Dr. Bidad is an active member of Philippine Association for Vocational Education, Inc (Regional and National), BIOTA-Phils., Inc, and Asian Educational Research International Association.

**DR. JOSEPHINE SUBONG** is currently the Dean of the College of Education and a Professor II handling Professional Education and Agriculture subjects both undergraduate and post graduate studies. She obtained her Master of Science Major in Soil Science at Misamis University, Master of Arts in Education Major in Administration at Western Mindanao State University and Doctor of Education at Western Mindanao State University. For years, she served as the Research and Extension Director of JRMSU Tampilisan Campus where she built strong linkages with PCARRD-WESMARDEC and produced agriculture related researches. In her constant endeavor towards research, PCARRD – WESMARDEC awarded her the Best Paper for four (4) times. She presented research papers in the local, national and international fora and conferences. Her research papers were also published in regional,

national and CHED accredited research journals.

Dr. Subong is a member of different organizations whose service is dedicatedly offered. She is now serving as the Vice President for Mindanao of the PASSAGE National Organization, Vice President of the CODTE Region IX for two (2) terms, and Press Relation Officer of the PAFTE Region IX.

**DR. RAMON E. LUZA** is the Professor II and designated as the Dean of the Academic Instruction at JRMSU Tampilisan Campus. He is teaching agriculture related subjects both in undergraduate and post graduate studies. He obtained his Master in Agricultural Development major in Animal Production at Leyte State University now Visayas State University and Doctor of Philosophy major in Animal Science at Central Mindanao University. As the Dean, Dr. Luza caught the trust of PCARRD making JRMSU Tampilisan Campus as a partner in a project of not less than two (2) million pesos. Western Mindanao State University partnered the University on its R and D projects which he formed part in the implementation. He also played a significant role in the establishment of native chicken multiplier farm worth approximately Php. 181,000.00 with DOLE as funding agency.

Dr. Luza relentlessly extended his professional skills as resource speaker and capability enhancement trainer to the farmers in the neighboring barangays of the University. His work is not solely limited and encircled on teaching and training farmers but on agricultural researches which made contributions to the current farming practices as well. He presented these researches in the local and national research fora and conferences. He also published his researches in the local and national refereed journals.

It can be gleaned in the table that Tampilisan Campus decreased in both semesters during the SY 2012-2013 at 5% and 3.62% respectively, compared to the previous school year. Dapitan Campus also has decreased enrolment during the second semester of the SY 2012-2013 at 6.03% but it showed a highest enrolment increase during the first semester of SY 2012-2013 at 36.01%. This great percentage increase is attributed to the enrollees from BS in Marine Transportation and BS in Marine Engineering consortium from Negros Oriental State University.

## STUDENTS ACHIEVEMENT

The University, as a believer in holistic human development is actively involved in academic and extra-curricular activities. Academic activities tested and stimulated students' mental abilities through numerical, verbal/linguistic, and technical challenges. On the same way, extra-curricular activities reawaken students' interests, hobbies and skills after a long and tedious academic year. The type of extra-curricular activities conducted by the University developed students' self-awareness, making them responsible for themselves and to other students. Through this involvement, the University paved the way to strengthening students' multifaceted capabilities that has an impact to their personality.

Table 18 depicts students' adept knowledge and skills in different areas of academic endeavor. Their achievements are manifestations of quality education endowed to them by the University.

# RESEARCH SERVICES

Jose Rizal Memorial State University (JRMSU) researchers have expanded the frontiers of knowledge and contributed to the material, social, and cultural well-being of Zamboanga del Norte and the Philippines as a whole. And as a University, JRMSU continues its venture of producing quality researches and expanding its experiences with the global trends in research. Researches have been presented in local, national and international research fora, symposia and conferences and published in local, national and international peer-refereed and indexed journals to disseminate and contribute significant findings within and across national borders.

The Ecology, Genetic and Restocking of Giant Clams: A Strategy of Strengthening Marine Conservation and Management of Marine Protected Areas around East Nusa Tenggara Province is in its fourth year of implementation and the University is one of its implementer. Funding agencies have already noted the quality

of research outputs that the University has produced. The Bureau of Fisheries and Aquatic Resources has still its trust to the University in the implementation of the Aquasilviculture Project in the province. Even the Department of Agrarian Reform noted the research capability of the University by entrusting its assessment projects in order to have smooth flow and successful implementation of its programs.

## RESEARCH OUTPUTS AND PRESENTATION

This year, the University maintained its outstanding performance in research. The University conducted researches not for the sole purpose of compliance but for the reason of serving the community by disseminating meaningful findings and contributing new knowledge and practices for the development of local, national and international communities. The dissemination of findings is done by presenting research papers during local, national and international conferences where researchers, educators, policy makers, community workers and other interested people convene. These people, who are actively involved in conferences in turn, conducted seminars and trainings for the benefit of the community as a result of newly acquired information and practices in specific fields.

The University has presented 15 researches in the international conferences, 36 in the national presentations, and 66 in the local presentations specifically SUCRED In-haus Review.

To strengthen the culture of research in the University, each college is mandated to conduct at least one research every semester. The researches have been funded by the college and the institution. The college researches are funded by the college itself. On the other hand, institutional researches are funded by the Research GAA fund of the entire University. Below shows the terminated researches of the Colleges that are not yet been presented in the local, national and international research fora/conferences.

## RESEARCH PUBLICATION

Twelve full research papers conducted and presented by faculty members of JRMSU were documented in the refereed E-International Scientific Research Journal for the benefit of researchers, speakers, and other clienteles concerned around the world. Another research paper was published in the Asian Journal of Biodiversity. The institution's CHED Accredited research journal, *The Threshold* also published full researches which were circulated nationally. Titles and authors of these papers appeared in Table below.

## ON-GOING AND FUNDED RESEARCHES

JRMSU is on its second year as implementer of the Bureau of Fisheries and Aquatic Resources (BFAR) Aquasilviculture project. It aims to ensure resource sustainability, attain food security and alleviate poverty among Filipinos who are known to depend on the country's coastal resources. Universitas Kristen Artha Wacana (UKAW), Kupang, Indonesia still partnered the institution in the implementation of the research project entitled, "*Ecology, Genetic and Restocking of Giant Clams: A Strategy of Strengthening Marine Conservation and Management of Marine Protected Areas around East Nusa Tenggara Province*" and now on its fourth year. Recently, the Department of Agrarian Reform trusted the institution as the implementer and consultant in three assessment projects necessary for the smooth implementation of its programs. Other research projects depicted below were funded by the institution.

### Ecology, Genetic and Restocking of Giant Clams: A Strategy of Strengthening Marine Conservation and Management of Marine Protected Areas around East Nusa Tenggara Province

Cultured *Hippopus hippopus* and *Tridacna squamosa* were placed on coral rubbles (Figure 1) before they were restocked in Tablolong and Bolok reefs in coordination with the local government unit of Tablolong and BBIP (Figure 2). Cages (dimension: 1m x 0.7m x 0.3m) were made using steel bars and PE net (Figure 3).

**Figure 1** One-year old *Hippopus hippopus* juveniles were placed on coral rubbles in preparation for restocking

**Figure 2** Consultation with the Vice Mayor of Kupang and Kepala Desa of Tablong (left) and fisherfolks of Tablolong, Bolok and Batu Bau (right)

A total of 1000 juveniles were deployed in Tablolong and Bolok reefs which included 191, one-year old *Hippopus hippopus* ( $37.17 \pm 6.62$  mm) and 801 three-month old *T. squamosa* ( $3.75 \pm 0.95$  mm) individuals on November 19, 2012 (Figures 4-5).

**PHILARM 22<sup>nd</sup> National Convention** hosted by JRMSU on April 10-12, 2012  
at Dakak Park and Beach Resort

The PHILARM committee and participants pose with great satisfaction and realization of the importance of social responsibility as the theme in the convention.

Dr. Eufemio T. Rasco, Jr., Executive Director Philippine Rice Research Institute, delivers his keynote speech on the topic Nurturing Social Responsibility Among Research Managers.

The PHILARM participants listen during the research paper presentations.

## EXTENSION SERVICES AND LINKAGES

Jose Rizal Memorial State University, as a determined institution in developing communities holistically, implemented extension programs and services targeting the economic, social, emotional, educational, and physical needs of these communities. Each College of the University is mandated to implement at least one extension program every semester. Extension programs and services have been conducted in research-driven and community need-based practices. These are implemented according to the capacity of the college to deliver them effectively.

Extension, aside from its being mandatory to the University, has been performed as part of the responsibilities of every faculty as an educated individual that his/her capabilities must be extended to the communities where his/her skills are most needed. The University is also maximizing its partnership to local, regional and national government line agencies and private sectors to strengthen its full-force extension workers and extend its geographical reach of adopting communities. This school year there are over forty (40) linkages that the University has strengthened. Coordinating with government line agencies and private sectors which have direct control to most of the communities, enables the University to widen its opportunity of rendering extension programs and services not only to its vicinity but also even beyond its area of responsibility.

Due to the known active services that the University can offer, it gained trust from the communities and invited external funding agencies to support its extension programs. As a result, it extended the services even beyond the sphere of its influence. In Iligan City for example, the University did not hesitate to plant hope and build communities to the victims of typhoon Sendong by actively and dedicatedly joining the Bayani Challenge: *Pilipinas Ngayon Na!* Almost all extension programs are ventured for poverty reduction of the people in Zamboanga del Norte. The implementation of these programs have been fortified in partnership with DOLE, DTI, DOST, DILG, DDPKaRoMa, LGSP - LED, DA, BFAR, PGO, DENR, TESDA, FIDA, DAR and PCA.

## RECOGNIZED EXTENSION PROGRAMS

The University with its commitment to deliver research and demand-driven extension programs for the benefit of the community through literacy program, values formation, livelihood training, health and sanitation, and environmental seminars, has truly gained public trust. The following are extension programs duly approved and adopted, in the school year 2011-2012 in collaboration with the local communities and government and private agencies.

## INSTITUTIONAL EXTENSION PROGRAMS

### JRMSU *iginis* **Bayani Challenge 2012: Pilipinas, Ngayon Na!**

JRMSU did hesitate to extend its arms to the victims of “Bagyong Sendong” in Iligan City. The Gawad Kalinga as a long time and strong partner of the University in all its program in Zamboanga del Norte, spearheaded the *Bayani Challenge 2012: Pilipinas, Ngayon Na!* in Iligan City to establish houses devastated by the typhoon and to bring hope, courage and new life for the victims which are critical in nation building. The Challenge was conducted at Steel Town, Iligan City on April 9-14, 2012 with five (5) activities, namely: building of homes, paraingong pambata, school build, environment and community health. It was participated by local and national government and private agencies and as well as civil society group. The University sent a team in support and participation of this nation building activity.

### JRMSU hosts **Handuraw 2012 Seminar-Workshop** on Cultural Heritage Mapping in partnership with City of Dapitan

The City of Dapitan in partnership with Jose Rizal Memorial State University conducted the Handuraw 2012 Seminar – Workshop on Cultural Heritage Mapping at CNAHS Audio Visual Hall, JRMSU, Dapitan City on December 27, 2012. It was attended by the teachers from the Department of Education, teachers from Rizal Memorial Institute, instructors and students from Jose Rizal Memorial State University and representatives from different local agencies in Dapitan City Barangay LGU.

The speaker of this momentous event is currently the director of Metropolitan Museum of Manila. He is also the Vice Chair of the National Commission for Culture and the Arts Committee on Monuments and Sites and an associate professorial lecturer and consultant of the UST Graduate School for Cultural Heritage Studies. He was once a scholar of the UNESCO Cultural Heritage Center.

Prof. Eric Zerrudo started his presentation with a question, “HERITAGE, MAKAKAIN BA YAN?” According to him, “Madaling tanggalin ang tao sa kanto, pero matagal tanggalin ang kanto sa tao.” In his presentation, he also presented the historical sites and structures as well as the world heritage sites that are found

in the Philippines. The lecture was fun and very informative. Prof. Zerrudo answered the question HERITAGE, MAKAKAIN BA YAN at the end of the presentation and the answer was OO, AT MARAMI PANG IBA.

The lecture on Cultural Heritage Mapping was a realization on the importance of the things that were almost left to oblivion to the moral, social, cultural and economic development of Dapitan. The lecture was a new light, guiding and making Dapitanons discover hidden treasures that would complete the concept of how truly amazing Dapitan is.

## LINKAGES

The JRMSU System is already known for its demand-driven extension services that strengthened linkages to public and private agencies.

# PRODUCTION

To augment the budget allocation of government for higher education, the Commission on Higher Education has encouraged State Universities and Colleges (SUCs) to engage in income generating projects (IGPs). In response, Dr. Edgar S. Balbuena, JRMSU University President, challenged the five (5) campuses of the University to maximize their available resource for sustainable IGPs. He also persuaded researchers to make researches for commercialization as another means of increasing the University's income.

Income generating projects has been beneficial for a long time to the University in cases where it's a necessity to source out fund from other reliable sources aside from the subsidy of the government to realize instructional and physical development; to expand and strengthen research and extension undertakings and to wage; and to compensate contract laborers. Likewise, IGPs serve as hands-on trainings for students to make connections between theories learned in school e.g. those with agricultural courses where fields are laboratories for crop productions; and enhance entrepreneurial skills of those with business related courses.

## INCOME GENERATING PROJECT (IGP)

Each campus is adopting strategies and applying entrepreneurial abilities to efficiently derive higher income from its resources. In the Main Campus, IGPs focused on students' system uniform, t-shirts, faculty uniform, sardine production, water refilling station, kiosk, guest house rental and toga rental. Dipolog Campus on the other hand, has only two IGPs namely, cafeteria, water refilling station, rent of gymnasium, metal work service, and catering service. Siocon Campus obtained its income from rice production, bangus and fry production, academic gown rental and system uniform. Katipunan Campus has IGPs focusing on dormitory and function hall rentals, rice, vegetables and fruit production, poultry and livestock raising, piggery, dairy products, food processing, and catering services,

Through the linkages of Tampilisan Campus with different NGOs and GOs as lead agencies for rice production and vermi-composting projects (vermicast/vermitea) has provided venues for IGPs capabilities towards the production of rice seeds and organic fertilizers in commercial level. Aside from this new project, the campus has maintained its income from bamboo, cattle/dairy project, ZREC, fruit trees, vegetable nursery, piggery project, poultry project, rubber production, rice production, sheep, computer printing, coconut project, sand and gravel/quarry, chicken multiplier farm, hito/tilapia production, and vermi culture.

## FINANCE

The subsidy given by the government to the University has been utilized to efficiently and effectively perform its mandated functions – instruction, research, extension and production. Some income of the University is derived from student fees, income generating projects, income from other sources and grants and donations. Tremendous accomplishments in Instruction, successive national and international awards and recognitions to researches conducted, increasing recognized extension programs, and great physical development as to the number of newly established facilities and laboratories are clear evidences of proper spending of funds and exemplary performance.

## STUDENT AFFAIRS AND SERVICES

Student Affairs and Services are non – academic services, programs and activities designed to facilitate holistic development through various experiential learning activities and to create an environment conducive to the total development of students,(CHED Memo 21 S. 2006).

This School Year 2012-2013, Student Affairs and Services office of the University has actively extended its assistance and services to its students. The office initiated quality, relevant, efficient and effective services and programs which unraveled and honed students' skills and abilities recognizing the diversity of their needs. Through the concerned Deans of the office, problems and issues pertaining to students' rights and concerns especially on intellectual, cultural, social and physical atmosphere in the campuses have been addressed carefully and intelligently. The University believed that students themselves are resources. Thus, the office has also provided them the opportunity to become collaborators of programs and services for the welfare of their fellow students.

## GUIDANCE SERVICES

As students strive for the quest for learning and excellence, the Guidance and Counseling Office (GCO) stands in its support of maximizing their gift of intelligence and talents and developing them as complete beings, holistic individuals who are ready to compete in the national and the global work market. Programs are well planned in order to make the students become excellent not only in terms of academic aspect but more with personality aspect. The journey of the guidance programs starts with understanding of the self in order to understand others. The programs along this journey do not stop on understanding the self and the inner personality, but these are maximized, developed, and changed in order for the world to also change. Throughout the journey, the GCO is always inspired on the belief of the effective people that, "The world will never change, if we will not change from the inside." The flight ends with a program for employment and job preparation. School Year 2012 – 2013 focused on Information and Orientation, Individual Inventory, Follow – up, Referral, Scholarship, Career Guidance, Peer Facilitator's Training and other activities.

## CULTURAL AFFAIRS

The office of Cultural Affair is responsible in promoting cultural awareness to students, faculty, staff and community as a whole.

The talented members of the Lundayan and Dimasalang Dance Troupe and Choristers have been constantly invited to show their talents not only in the activities of the University but also in local and national events conducted by the City government offices of Dapitan and Dipolog Cities.

With their exemplary performances, they are even invited outside the Province of Zamboanga del Norte like Oroquieta, Misamis Occidental.

## HEALTH SERVICES

In compliance with University Code, the promotion of health and well-being among the students is the primary concern of the medical and dental personnel. A health service is provided by licensed medical, dental, and allied health professionals.

The school nurse who is permanently stationed in the clinic very accessible to the students and faculty gives daily consultation, immediate treatment/first aid treatment for minor injuries.

## NATIONAL SERVICE TRAINING PROGRAM

The National Service Training Program (NSTP) law or Republic Act 9163 which aims at enhancing civic consciousness and defense preparedness in the youth by developing the ethics of service and patriotism, has three components namely; the Reserve Officers' Training Corps (ROTC), the Civic Welfare Training Service (CWTS) and the Literacy Training Service (LTS).
